

Risk Analysis and Compliance

for Transportation Industry Insurers

Streamline...

Underwriting

Enrollment

Ongoing customer compliance

The Problem

The pendulum of loss has swung in the direction of insurance companies.

Insurers leaving the segment

Limiting the number of accounts they will accept

Tightening underwriting requirements

Rising rates

The Solution

A portal of visibility for underwriters and insurance companies.

Key Benefits

Complete visibility into the risks associated with an insured entity.

Controlled compliance with underwriting guidelines and requirements.

Real-time views and alerts of critical compliance events.

Streamlined approach to data collection and onboarding.

Guided Risk Assessments

ClearTrac guides your prospective insureds through a line by line assessment of the factors that will help you evaluate and quantify risk.
